Re: Tentative Approval to Amend Large Mining Operations, Bryce Haas, B & C Limestone Mine, M/039/013, Sanpete County, Utah

Dear Mr. Haas:

The Division has completed a review of your latest response, received April 3, 2003. This now completes the information that the Division requires to approve your amendment submitted December 19, 2001, and to finalize approval of your Large Mining Operation Notice of Intention. However, before the Division can issue final approval, the appropriate reclamation surety must be provided.

As part of the review of your permit amendment, the Division has recalculated the amount of reclamation surety required for the B & C Limestone Mine, M/039/013 (cost estimate attached). The new surety requirement is \$68,400.00, calculated in year 2008 dollars. You are hereby requested to increase the current \$36,000.00 surety for this operation by \$32,400.00. This can be done by providing a rider to the existing surety, posting a different form of surety for the balance, or by providing a new surety for the full \$68,400.00. You will also need to revise the reclamation contract to reflect the change in the amount (and form, if changed) of surety. A reclamation contract is enclosed for this purpose.

Please provide this increased surety and revised reclamation contract within 60 days from receipt of this letter. Failure to do so may result in the Division withdrawing its tentative approval and ordering immediate reclamation of the site. Please contact Joelle Burns at (801) 538-5291 for the appropriate surety forms if you provide anything other than a rider.

Thank you for your cooperation in completing this permitting process. Please don't hesitate to call me at (801) 538-5286, or Lynn Kunzler at 538-5310, if you have any questions regarding this letter.

Sincerely,
